

Hand fabricated aluminum folding scissor type maintenance platforms.

## Heavy Equipment Servicing

1 or 2 person spring assisted lift. Multiple height positions. Locking wheels. Removable handrails. Deck end or side extension ladder entry. Ladder stows under deck when platform folded flat. Deck extension options, 10" wheels, outrigger legs, tool trays, deck padding. Canadian fabricated. CSA, ANSI & Osha compliant.

*"Its excellent. We use our scissor deck for maintaining Ag Equipment. Our guys used it for installing the rear view camera on the combine. They use it on sprayers and quad trackers. There's many more functions. I see it being used all over the place. Quite happy we purchased it. We have it in all our (6) branches now." Sterling Gaudaur, Service Manager, Redhead Equipment, Lloydminster, Saskatchewan*
