

manufactured by  
**EASY ACCESS Industrial Distributors Inc.**

Hand fabricated aluminum folding scissor type maintenance platforms.

## Heavy Industry Maintenance

1 or 2 person lift and capacity spring assisted maintenance platform. Multiple height positions. Locking wheels. Removable handrails. Deck end or side extension ladder entry. Ladder may stow under deck when platform folded flat. Deck sizes to 6' x 40", outrigger & telescoping legs, tool trays, deck padding. Canadian made. CSA, ANSI & Osha compliant.

Shaun Nelson, Safety Coordinator, Kakivik Asset Management, Anchorage, Alaska *We do pipeline inspections. We use the Scissor Deck for high areas to prevent having to use ladders. We prefer to use the Scissor Deck over ladders as it provides a safer way to do our inspection work. It's a stable work platform. Its lightweight and easily transportable. It's a new technology that can be utilized in any industry.*

Save time Safe work zone Scissor Deck
